

This machine is suitable for slitting and rewinding such various roll materials as BOPP, PET, CPP, CPE, PVC and paper, etc. It can cut edge separate and cut the material according to different requirements during production. Automation EPC for unwinding, photocell is suitable for tracking the edge and color of transparent material. Equipped with magnetic powder brake for unwinding tension control. Magnetic clutch control for rewinding tension control..

Type	ZQ-1600
Max width of mother roll	1600mm
Max diameter of mother roll	600mm
Width of final roll	30-600
Cutting speed	5-160m/min
Precision for correct and error	$\leq \pm 0.5\text{mm}$
Total power	4kw
Gross weight	2200kg
Overall dimensions	2300 × 1610 × 1400mm

Spare parts for free

- 1) tool case
- 2) cutting knife
- 3) knife bracket
- 4) EPC(edge position control device)
- 5) Air pneumatic shaft
- 6) Magnetic powder, auto tension control
